Amendments to the Specification

These amendments were previously submitted on November 30, 2004 in response to the Notice of Non-Compliant Amendment dated November 19, 2004. They are resubmitted for the Examiner's reference.

Please amend paragraph 13 of the Specification as follows:

[13] The objects of this invention are multilayer shrink films and methods of making same. In particular the multilayer shrink films comprise one or more polyethylenic layers, one or more polystyrenic layer and polystyrene compatibilizing layers ~~situate~~ situated between each polyethylenic layer and polystyrenic layer wherein the polystyrene compatibilizing layers comprise less than 1% by weight substantially random interpolymer. In one embodiment, the multilayer shrink films of the invention are produced using biaxial orientation. Preferred biaxial orientation methods include double-bubble or tenter-frame biaxial orienting processes.
